DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Todd Oberdick on 05/13/2008.

IN THE SPECIFICATION

Please replace paragraph [0001] in the specification as follows:

[0001] This patent application is a divisional of ~~currently pending~~ U.S. patent application Ser. No. 08/946,799, filed Oct. 8, 1997, now issued as U.S. Patent No. 6,814,714, which is a continuation of U.S. patent application Ser. No. 08/530,150, filed Sep. 29, 1995, now abandoned, which is the national stage entry of International Patent Application No. PCT/DE94/00663, filed June 15, 1994, which claims priority to German Patent Application No. DE 43 19 630.6-35, filed June 15, 1993.

Allowable Subject Matter

Claims 1, 4-5, 7-11, 14-17, and 19-22 are allowed over the prior art of record as amended in the reply filed 06/01/2007.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device of trocar and an endoscopic instrument includes a first instrument part adapted for insufflation gas with an instrument channel; a

second instrument part suitable for gas connection which connects to the first part and containing a heating device that heats the gas within the channel.

The closest prior art of record is Semm (USPN4,464,169) and Drapeau et al. (USPN4,682,010), however these references do not disclose the claim limitations as claimed or described above.

Regarding claims 1 and 14, the closest prior art of record fails to teach among all the limitations or render obvious the endoscopic instrument system comprising the two instrument parts, tube with heating device and trocar assembly as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher D. Koharski whose telephone number is 571-272-7230. The examiner can normally be reached on 7:30am to 4:00pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nick Lucchesi can be reached on 571-272-4977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
